ERIA[®]

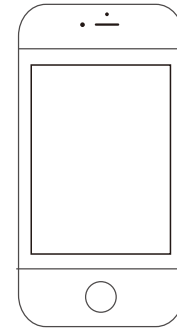

USER MANUAL
ERIA BRIDGE

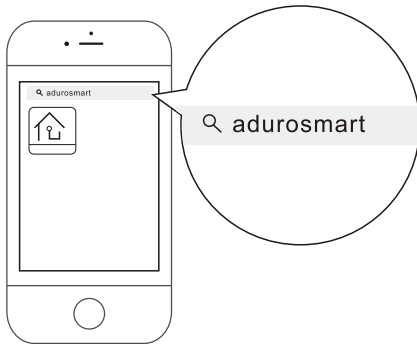

1. Connect the Eria Gateway to your home's wireless router using a RJ-45 LAN cable.
2. Connect the Eria Gateway to the power with a USB cable and the included USB power adapter.
3. Make sure your router is connected to the internet.
4. Wait for the light to turn green. This will take a few minutes.

5. Ensure that your smart phone is connected your home's wireless network and that your phone can access the internet.

6. Download the Eria smart-phone app from the Apple App Store or from Google Play or go to www.eria-smart.com/download

7. Open the app and follow the step by step instructions on the screen. You will need to register your own account, and follow the on screen instruction.

The Eria gateway is the control station of the Eria Smart Home system that controls all the Eria smart devices including Eria sensors, Eria switches, Eria light bulbs and other 3rd party zigbee certified devices. To learn more about compatible products go to: www.eria-smart.com/compatibility
